

GRAY, G.M.

200-5

Memo from

JOSHUA LEDERBERG

To:

G.M. Gray

MAY 29 1975

Is there any future to the
clinical use of purified

D+4

- (2) cholera toxin for the treatment
of serious constipation (...→
diarrhea... ?)

Our 1 year old has a really
difficult problem. But I
was just speculating in a
more general way.

Josh-L.
